

MEETING ROOM MANAGEMENT AND OPTIMIZATION

**R C O M Z**  
INTELLIGENT OFFICES

## Meeting room solutions for hybrid work environments

A solution developed in Switzerland,  
adapted to every surface and scalable  
according to business needs.

Synteg SA has partnered with ROOMZ to offer **customers modern, easy-to-adopt solutions for hybrid work.**

**ROOMZ helps companies manage meeting rooms and workspaces efficiently,** improving both collaboration and employees' day-to-day experience. The ROOMZ ecosystem combines **dedicated booking devices** (room displays) with the myROOMZ app, allowing users to book in advance, coordinate with colleagues, **and view real-time space availability.**

## THE COMPONENTS

For those who want to go beyond basic management, **ROOMZ Advanced Analytics** makes it possible to track the actual usage of desks and meeting rooms and use the data to optimize environments, **boosting productivity and efficiency.**

In addition, ROOMZ stands out for its **practicality and sustainability**: fast installation, **connection to the existing Wi-Fi network** (no cabling required), **components developed and manufactured in Switzerland**, and a reduced ecological footprint thanks to **optimized energy consumption and long-lasting autonomy.**

## STRENGTHS

- 1 Simple and scalable installation
- 2 Easy wireless setup
- 3 Swiss-made design in aluminum and glass
- 4 Easy, intuitive user experience
- 5 Data security even for sensitive industries
- 6 Low maintenance and reduced costs
